

CUSTOM MADE PRODUCTS SINCE 1978

We have been operating since 1978 in the field of high-precision, powerful hydraulic and pneumatic systems for the movement and control of machinery and equipment constructed to meet the requirements of our clientele in the naval, industrial and iron and steel sectors.

**Made in Italy Pneumatic
electrohydraulic controls**

We design and manufacture:

- proportional hydraulic systems, anti shock, anti magnetic, for use on Military Naval Units:
- hydraulic power units controlling: pitch propellers, stabilizing fins, watertight doors, capstans and winches, rudders, deck and machine equipment, valves;
- NBC dampers (waterproof up to 60,000Pa), Fire fighting dampers, air droplet separators;
- cold rooms for food
- lubricating plant;
- hydraulic and pneumatic brakes;
- compressed air treatment systems(high and low pressure);
- thrusters for military landing craft;
- fuel accumulators for gas turbine;
- water Washing Skids and Trolleys for Gas Turbines and Compressors;
- damping systems for self-propelled trailer for the transport of yachts up to 1,000Ton
- equipment and special constructions dedicated to the needs of the Industry and the Shipbuilding**
